Our Southern California client has an **IMMEDIATE NEED** for a Facilities / Maintenance Engineer who has a minimum of 5 years' experience in a Manufacturing Environment. The client prefers local candidates.

MUST HAVE REQUIREMENTS for this position are:

- * Bachelor's degree in Mechanical Engineering
- * 5 years Facility / maintenance Engineering
- * A history of handing numerous projects concurrently
- * Work in a dynamic manufacturing environment
- * A history of BEING HANDS-ON
- * Expertise with Six Sigma, LEAN Manufacturing, QS and ISO quality systems

PLUSSES in this position are:

- * Specific process knowledge (Hi-temperature processing equipment, web converting, milling equipment, 3D CAD / CAM, environmental regulations compliance, OSHA regulations compliance)

Reporting to the Site Manager, the responsibilities of this position include, but are not limited to:

- * Direct & coordinate activities (design / fabrication maintenance operation, application, installing manufacturing processes)
- * Design and improve reliability
- * Modify and maintain the physical infrastructure and equipment
- * Monitor & control maintenance costs and planning
- * Design installation of vendor equipment
- * Design facilities, systems, & controls
- * Start up and shut down of systems
- * Set operating parameters of systems (PLC, sensors, automation, electrical, fire control, energy management)
- * Train staff on a continuing basis (operation & maintenance)
- * Maintain spare parts inventory
- * Develop planned maintenance & replacement time frames and budgets
- * Prepare & present monthly reports

If you meet these requirements and wish to be considered for this position, send your résumé to us in a Word document at Resumes@PinnaclePlacementGroup.com mentioning the **Job ID** and the **Job Title** in the subject line of your email.

In your email or cover letter, please provide us a short narrative detailing your experience and expertise as it applies to this position. Also, please provide us with your salary requirements.
