Please help the reader (s) of your résumé by telling us what your employers do / did to make money. Do not assume that the reader knows what your employers do / did.

One or Two sentences will suffice.

Our Client has a need for Program Quality Assurance Manager, PQM, with direct Military Electronics experience and expertise.

MUST HAVE REQUIREMENTS for this position are:

- * **ABILITY TO OBTAIN A DoD ISSUED Secret Security Clearance**
- * Bachelor's degree in an engineering discipline (Electronics, Electrical, Mechanical) or equivalent experience and expertise
- * 7 – 10 years' experience in Quality Management (lesser years of quality management will be considered when coupled with direct DOD supplier experience)
- * Direct knowledge of Military program aspects of qualification, documentation, configuration management
- * Expertise in Military Inspection Protocol
- * Experience in Military Supply Side Source Inspection
- * Strong knowledge, experience and proven success in continuous improvement disciplines / philosophies in all aspects of Quality Engineering
- * Prior knowledge and expertise in ISO9001 Quality Management System
- * Prior & Verifiable innovative leadership & management practices & successful introduction of new processes
- * Previous leadership skills interacting at all levels of business organizations, Military clients, & their inspection agencies
- * Superior oral and written communication skills

PLUSSES in this position are:

- * Experience with effective working relationships with DCMA (Defense Contract Management Agency)
- * International experience
- * Demonstrated ability to understand designs, manufacture, assembly & test in an electronics environment
- * Prior experience in Radiological or CBRN products

The successful candidate will enhance, improve, & develop quality systems & mechanisms by which multiple production sites will work seamlessly in the execution of military program quality objectives. The PQM will assure the implementation of processes to conform to specifications, standards, and customer expectations for select radiation detection products. The PQM will review / edit / develop and maintain Quality Assurance Surveillance Plans (QASP), Contract Data Requirements Lists (CDRLs). Process Guides etc.; & will serve as client's primary representative to interface with government QRs (Quality Representatives).

The RESPONSIBILITIES include, but are not limited to:

- * Provide guidance & oversight of Quality Management functions
- * Lead all activities involving quality assurance & compliance with applicable Military contract requirements
- * Lead the development & implementation of procedures and plans (e.g. QA Plan, QA Surveillance Plan [QASP] corrective action plans) for assuring quality products in a lean & continuous improvement environment
- * Ensure Root Cause and Corrective Action (RCCA) and Failure, Reporting and Corrective Action System activities identify root causes and systemic issues & ensure robust & effective corrective action
- * Schedule, monitor, & review product qualification & re-qualification activities
- * Schedule, Monitor & review tier level conformal testing for product lot acceptance
- * Monitor product Configuration Management activities
- * Conduct audits & reviewing / analyzing data, deliverables, & documentation
- * Establish processes to continually improve the effectiveness of a Quality Management programs
- * Manage & mentor quality personnel, including Site Quality Managers and Quality engineers, to include on-boarding, training, technical, interpersonal & leadership development, performance evaluation & recognition

If you meet these requirements and wish to be considered for this position, send your résumé, that **includes what your employers do to make their money**, to us in a Word document without Headers / Footers, or Text Boxes at [Resumes AT PinnaclePlacementGroup.com](http://ResumesATPinnaclePlacementGroup.com) mentioning the **Job ID** and the **Job Title** in the subject line of your email.
