

Job ID: 08-09-21
Job Title: Electrical Design Engineer
Degree Requirements: BSEE
Years of Experience: 5
Location: Macon, GA area
Hourly Pay Range: \$30 - \$38 per hour
Travel Required: 25%

Our Engineering and Construction Services client in the Macon, GA area is searching for an Electrical Design Engineer with a P.E. This is a Contract-to-Hire position for up to 6 months with strong possibility to become Perm during that period. This position will be part of the Value Engineering team working with federal and state government clients and will perform technical electrical system design for planned new construction, along with the required VE studies. There will be some travel, most of which will be daily trips to meet with clients.

Requirements:

- BSEE with a P.E. in Georgia
- At least 5 years electrical design experience of large commercial buildings
- Experience with government clients (strongly preferred)
- Excellent teaming skills and ability to interface effectively with Mechanical and Architectural members of the team
