

Job ID: PH70610A
Title: Product Engineer-Power Distribution
Degree Requirement: BSEE or closely related
Years Experience: 5 to 8 minimum
Location: North Atlanta
Salary: Confidential
Travel: 10%-20%, including some international

Our North Atlanta based client is actively searching for a Product Engineer - Power Distribution who will have overall responsibility for product support--from product evaluation and selection to providing hands-on support for these products to technical and sales teams. You will be working in a very strong collaborative team environment with product responsibilities that will include, but will not be limited to: circuit breakers, fuses, transformers, terminal blocks, contactors, connection systems and arc flash gear.

In addition, you will serve as a Subject Matter Expert with responsibility to support previously mentioned products. These responsibilities will include:

- Improving product quality and reducing costs
- Evaluating products
- Testing products
- Source material and documentation to be used in manuals, webinars, application notes, articles
- Training for Sales and Technical Support personnel
- Support for new product introductions

If you have had previous hands-on experience as a product design or applications engineer with the above product set, and are seeking to apply your skills in a sales / technical support role that requires a strong collaborative approach, then we would like to hear from you.

Travel is generally scheduled in advance (i.e. for meetings, seminars, training) and may include some international travel. Local candidates strongly preferred; no relocation assistance is available at this time.

Requirements:

- At least 5 years experience (ideally 8+) in the industrial automation market including product design, product application, control system integration, and / or technical support of power distribution products
- BSEE or a degree in a closely related discipline, such as Electro-Mechanical
- Demonstrated ability to work on and manage projects independently and meet deadlines with minimal supervision
- Ability as a team player and as a leader with the ability to reach out to other internal organizations and to customers, and establish key functional relationships
- High degree of self-confidence, and an approach to continuously learn about industrial control and power distribution products
- Strong communication skills--verbal and written.
- Experience with agency approval process, such as UL, CSA, CE, RoHS (preferred)
- Experience using AutoCad and / or SolidWorks (preferred)
- Experience with PLC (Programmable Logic Controller) products (preferred)

KEY WORDS: industrial automation, plc, ul, csa, ce, rohs, industrial sales, technical support, tech support, autocad, solidworks, auto cad, autocadd, solid works, allen Bradley, allen-bradley, ge fanuc, hmi, human machine interface, programmable logic controller, bsee, electrical engineer, international travel, Siemens, square d, easyautomation, product design, product application, power distribution, power distribution products, product engineer
