

Job ID: **RK070711A**
Job Title: Programmer / Analyst
Degree Requirements: Bachelor's Degree
Years of Experience: Minimum of 3 years Software Development
Type of Position: Direct Hire
Location: Chicago, IL Area
Salary Range: Depends on Experience and Expertise
Travel Required: Less than 10%

Our Chicago, IL client has an **IMMEDIATE** high-profile opportunity for a Programmer / Analyst who has a minimum of three years work experience in software development.

In this position you will utilize your system design and development skills helping a well established financial services related insurance company best utilize their technology investment. You will use your expertise and experience in system analysis, design and implementation that is relevant to the CICS / DB2 / Cobol, and VB / Zena / Network platforms. You will be working in a strong user community where interaction is required to facilitate the design, delivery and maintenance of solid business systems.

No relocation assistance is budgeted for this position.

The **MUST HAVE** items to be considered for this position are:

- * Minimum of 3 years in a Software Development role supporting significant business systems
- * Verifiable experience and expertise in significant system design and implementation
- * Mainframe Environment Experience (DB2 / Cobol / CICS, MVS JCL, Utilities & Toolsets)
- * Network Environment Experience (Visual Basic, MS SQL Server, Oracle, SQL Language, VBScript, Kix Scripting, Zena Task Scheduling, Crystal Reports
- * Ability to work as a development team member
- * Ability to work with users to define business requirements & design solutions
- * Strong written communication & technical documentation skills
- * Be committed to long-term technical & business knowledge development & learning

PLUSSES in this position are:

- * Experience with Visual Basic, X-base, MS-Access platforms
- * Prior experience in an insurance and / or banking enterprise
- * Other network scheduling platform

The **RESPONSIBILITIES** of this position include but are not limited to:

- * Support Current Applications
- * Problem Analysis & Solution Design
- * Maintain Project & System Documentation
- * Applications Development
- * Management Information Reporting
- * Interface with Internal & Outside Vendors as well as other Technical Resources
- * Integrate internal & external / vendor systems

If you meet these requirements and wish to be considered for this position, send your résumé to us using Word 97 -2003 at Resumes@PinnaclePlacementGroup.com mentioning the **Job ID** and the **Job Title** in the subject line of your email.

In your email or cover letter, please provide us a short narrative detailing your experience and expertise as it applies to this position.
