

**Job ID:** 08-09-17  
**Job Title:** Field Engineer  
**Degree Requirements:** AS or BS in Mechanical, Electrical, Controls, Process, Industrial Engineering. Military training and / or technical work experience will be considered.  
**Years of Experience:** 2 - 4  
**Location:** Anywhere in the US near a major airport  
**Salary Range:** \$56K – \$64K + Overtime -- With overtime, normal income exceeds \$100K  
**Travel Required:** Up to 80% to domestic and international job sites

IMMEDIATE NEED for a Field Engineer who has expertise in Industrial HVAC and Power Generation in Gas Turbines to support customer commissioning, trouble-shooting, repair or retrofitting mechanical systems.

The **MUST HAVE** items for this position are:

- 1) AS or BS in Mechanical, Electrical, Controls, Process, Industrial Engineering. Military training and / or technical work experience will be considered.
- 2) Field experience in construction support, startup, repair and / or maintenance of industrial HVAC, energy service contracting, or central refrigeration plants
- 3) Ability to travel extensively domestically and internationally with a valid driver's license and passport
- 4) Strong mechanical aptitude and abilities
- 5) Basic PLC ( Programmable Logic Controller ) and VFD ( Variable Frequency Drive ) knowledge and experience
- 6) Work with little supervision in a field construction environment

A plus for this position is power generation experience and expertise with gas turbines.

Reporting to the Customer Service Supervisor, the responsibilities of this position include but are not limited to:

- 1) Provide field customer support in commissioning, trouble-shooting, repair or retrofit for projects ( mechanical and electrical equipment, controls, communications, computers )
- 2) Documentation of procedures
- 3) Working and communicating with internal and external customers
- 4) Compilation of commissioning manuals, creation of legible "red line" drawings

**The answers to these questions are used as a pre-screening tool by our client.**

**Please take the time to help us help you by fully answering them.**

1. What is your educational or training background? Please be specific when answering this question.
2. Where do you live and from what major airport would you travel?
3. Can you realistically travel a minimum of 80% of the time?
4. Do you have a valid driver's license and passport?
5. If you do not have a valid passport, are you eligible to obtain one?
6. Briefly describe your work experience as it relates to Industrial HVAC startup projects. Be certain to include your HVAC, PLC, and VFD experience.

If you meet these requirements and wish to be considered for this position, please send your résumé to us using Word 97 -2003 at [Resumes@PinnaclePlacementGroup.com](mailto:Resumes@PinnaclePlacementGroup.com) or call us at 770-422-2152 or 770-740-0494.

Please mention the **Job ID** and the **Job Title** when contacting us.
