

Job ID: PH301A
Job Title: System Protection Supervisor
Degree Requirements: BSEE
Years of Experience: 7-15
Location: South Florida
Salary Range: \$80K - \$95K DOE
Travel Required: < 10%

If you are an Electrical Engineer on a solid career progression and possess demonstrated leadership ability, along with a desire to live and work in southern Florida, this opportunity may be a fit for you! Our power client is Actively Searching for a System Protection Supervisor with responsibility to direct the Electric System Protection team. You will lead efforts directly related to the design and maintenance of protective relay systems for transmission and substation protection up to 230kV, as well as coordination of distribution protection for a 25kV system. Your team will also be responsible for all tasks and activities that ensure compliance with all applicable NERC Reliability Standards. Your scope of responsibility will also include Project Management and the development and maintenance of standards and specifications. Relocation assistance is available for the right candidate. Travel away from the office is minimal with occasional visits to field facilities.

Requirements:

- BSEE; concentration in electric power systems is Preferred
- 7-15 years experience in the following areas: design and installation of power system relaying, protection relaying and power systems analysis
- Above experience to include 2-3 years supervisory experience or increasingly responsible experience in a leadership role
- Demonstrated ability to think strategically and develop initiatives to support needs of the business
- Sound financial and analytical skills
- Ability to communicate easily with all levels in the organization, including executives
- Florida drivers license

Desired:

- MSEE or MBA
- P.E.
- Project Management certification
- Practical experience with Schweitzer relays and new substation relay design, panel fabrication and installation

Benefits

- Medical/Dental/Vision
- Prescription Drugs
- LTD
- HSA & FSA
- Defined Pension Plan
